

Chapter 122 - Divine-Class Weapon

While eating fried rice, I asked Mika for a favor.

"Hey, Mika. Can you lend me your bow for a moment later?"

"Sure, but... what are you going to do?"

"I thought of mixing it with Orichalcum to turn it into a divine-class weapon."

"Huh?!... I-I understand. Thank you."

After finishing my fried rice, I received the Absorption Bow from Mika and headed to my new workshop.

The blades I'll be using this time are, of course, alloys.

I'll further alloy Orichalcum with my super alloy, Ultimate Silver.

Now then, let's give it a try.

I'll show off my item mastery.

I did it... It's already named, which is a bit concerning. The alloy's name is "Adamant."

If it has a name, it means someone has made it in the past.

Using this Adamant, I'll strengthen my weapons. And I'll use a massive amount of materials from monsters too.

I obtained plenty of them from mission chests in the dungeon.

It took three hours to create both the sword and the bow. Finally, they are both complete.

They boast an unimaginable level of strength.

Alright, let's take a closer look at the appraisal results.

["Divine Absorption Sword"]

– Condition: Excellent

– Craftsmanship: Superb

– Value: Divine-Class

– Material: Adamant

Enchantments:

– S~SS Rank Monster Materials (abbreviated display)

– Type: Demonic Divine Sword

– Description:

– Attack Power +5000 (500 x 10)

– Enhances the sword's performance in a ritualistic manner (sharpness, durability, attack power increased tenfold)

– Magic emitted by anyone other than the owner has no effect on this sword

– By consuming MP, the sword's performance increases proportionally (MP1 -> +0.01x multiplier)

– Can absorb magic. The absorbed amount enhances the sword's performance (MP1 -> +0.01x multiplier)

– Absorbs 10% of the target's MP when inflicting wounds. The absorbed amount enhances the sword's performance (MP1 -> +0.01x multiplier)

– Note: The duration of the above effects is 3 days. After 3 days, accumulated magical power resets to zero, starting with the oldest.

– Additionally, the MP accumulated in this sword can be utilized by the owner as their own MP

– Wounds inflicted by this sword can be instantaneously healed at the owner's discretion

– Those wounded by this sword can be knocked unconscious at the owner's discretion. The duration of unconsciousness depends on the difference in strength between the owner and the target.

– Amplifies the sensation of pain inflicted on the target by 10 times. However, the target must be unconscious for this effect to take place.

- By consuming MP20, summon lightning. The power of the lightning depends on the owner's W.
 - Ritualistically enhances the owner's stats, excluding HP and MP (20x multiplier)
 - Provides a moderate lightweight feel
 - Indestructible
 - Constantly maintains the best condition]

I created an incredibly powerful weapon...

I feel like I can destroy the world with this weapon.

Anyway, I should give the Divine Bow to Mika. Yeah.

"Eh... What's this?"

These were the first words Mika uttered after appraising the bow.

"Isn't this amazing?"

"It became like this because I used abundant SSS-class magic cores."

"Oh, I see..."

Mika continued to gaze at the bow for a while.

"Thank you. Anyway, I'll make use of it."

"Yeah."

Mika smiled sweetly.

She's adorable.

Phew... being an item master is truly cheating.

While I'm at it, I want to improve my sword skills. I wonder if I can do it if I set my mind to it?

By the way, each technique seems to be different. Are they like different schools?

Was it "Kyoku" (Extreme), "Tei" (Emperor), "Gou" (Roar), and "Goku" (Prison)?

I might be able to create something like the "Kyoku Secret Technique."

Based on the "Kyoku Secret Technique," I synthesized the "Yumi Goku Secret Technique" (Bow Prison Secret Technique).

As expected, the "Ken Goku Secret Technique" (Sword Prison Secret Technique) was completed.

Let's give it a try.

Using the same method, I also created the "Ken Gou Secret Technique" (Sword Roar Secret Technique) and the "Ken Tei Secret Technique" (Sword Emperor Secret Technique).

By the way, I realized that I can create something called the "Absorption-Type Skill Card" with Dark Matter.

It allows me to turn my own skills into skill cards, but in exchange, my skills will disappear.

Yes, that's right. Let's give Mika the "Yumi Kyoku Secret Technique," "Yumi Goku Secret Technique," and "Yumi Gou Secret Technique" as a present. That would be nice.

I turned the "Yumi Kyoku Secret Technique" and "Yumi Goku Secret Technique" into skill cards. Since I didn't want Mika's bow skills to disappear, I created the "Tai Geki Goku Secret Technique" (Body Strike Prison Secret Technique) as a replacement. I turned it into a skill card and decided to give it to her in a way where she can make it herself.

"Mika, sorry for interrupting while you were looking at your bow, but I have this skill card for you."

I handed Mika three skill cards.

"Huh? Is it okay? Did you find these in the dungeon?"

"No, it's different. I extracted these skill cards myself. They contain skills that are perfect for you. Give them a try."

"Okay."

Mika pressed the skill cards against her forehead and acquired the skills.

"As for the 'Yumi Goku Secret Technique,' combine it with the 'Tai Geki Goku Secret Technique.'"

"Yeah... Yes! Arim, thank you!"

That's good. As long as I can see Mika's happy face, I'm satisfied.

By the way, I wonder what will happen if I combine these four skills.

I tried combining the four sword secret techniques.

And what I ended up with was a five-star skill.

"Sword God Technique ★★★★★."

It requires 1200 SP. Judging from the amount of SP, it seems that the Item Master is indeed superior...

"Mika, try synthesizing the four secret techniques."

"Yeah... I already did it. I got the first five-star skill, 'Yumi Jin Secret Technique'! And then, I combined it with 'Taiyou to Tsuki no Yumi Tei Hou'..."

Ah, so Mika also tried synthesizing them.

"What happened?"

"It became 'Taiyou to Tsuki no Yumi Jin Hou.' Well, it just increased the power, but that's about it."

"That's amazing!"

"Yeah, thank you, Arim."

During dinner, I mentioned that we would be going to the castle tomorrow.

"Oh, that's incredible! The castle! The castle!"

"Well, I've been there a few times already..."

"Oh, I remember hearing something like that. When you won the tournament... hmm? Anything else?"

"I became friends with the princess of this country, Karua-chan. She's thirteen years old. I've met her a few times."

"Oh... really? Can I become friends with her too?"

"I think she'll be delighted. She said she doesn't have any friends her age."

"Is that so?"

Okay... If I don't say it, eventually it will be revealed.

I have to say it now. That I slept in the same bed as the princess!!

If I want to defend myself and say that I didn't have any impure intentions, I have to do it in advance!

"Um... Mika?"

"What?"

"Sorry, but I slept together with Karua-chan in the same bed two or three times."

Mika's face turned pale, and she seemed like she was about to cry.

Maybe being scolded would be better than this.

Ah, what should I do?

"Ah... Yūmu... Did you...cheat?"

"N-No! It was just between girls... I slept together with Arim as friends... And besides, it was before I started having this kind of relationship with Mika... And she asked me to spend the night..."

"Enough... I understand... sniffle"

Ah... What should I do...? What should I do?

"Mika... Mika, I'm sorry."

"Well... I'll ask you one thing."

"W-What is it?"

"From today on, you'll sleep with me every day, right?"

When she asked me that again, I felt embarrassed.

"Yes... That's right."

"Will you do it tonight too?"

"Yes..."

"Today, I want you to hold me tight and sleep!"

She looked at me with teary eyes.

So adorable.

...I can't refuse.

Therefore, on that night, I ended up holding Mika and sleeping.

Well, I didn't go back to Yūmu, of course.

"Sometimes... like this, okay?"

Yes. I will do my best.
